

How to Order an AdvantaPure Hose Assembly

Example:

This assembly consists of a 3/4" I.D. double-braided silicone hose with a 3/4" mini sanitary Tri-Clamp® fitting (316L stainless steel) on one end and a 1-1/2" sanitary Tri-Clamp step up fitting (316L stainless steel) on the other. The assembly is 72" in length and uses an AdvantaLabel® for hose identification.

Collars are used to attach fittings to hoses. When pricing an assembly, remember to add the cost for all collars.

Hose I.D. Size

Code	Size
02	1/8"
04	1/4"
06	3/8"
08	1/2"
10	5/8"
12	3/4"
16	1"
24	1-1/2"
32	2"
40	2-1/2"
48	3"
64	4"
