# APFOS STAINLESS STEEL Overbraided PTFE Hose

WHITE PTFE CORE; SMOOTH OR CONVOLUTED I.D.

E o

о .

pure

dvanta

ww.a

**UOROPOLYM** 

### **Key Features**

- True Bore PTFE Smooth Core offers maximum flow; Convoluted Core offers excellent flow with enhanced flexibility
- Stock sizes for True Bore Smooth Core: 1/4 in. through 1-1/2 in.; Convoluted Core: 1/2 in. through 3 in.
- Hose liner meets FDA 21 CFR 177.1550, ISO 10993 Sections 5, 6, 10 and 11 and is made from USP Class VI compliant material
- General temperature range: -100°F (-73.3°C) to 450°F (232.2°C)
- Excellent chemical compatibility
- Resists moisture
- Easily cleaned or sterilized by autoclave, steam, or detergent
- Optional silicone jacketing makes stainless steel reinforced hose easier to handle by offering heat protection
- Silicone jacketing also provides a smooth outer surface to eliminate particle entrapment for sanitary conditions
- Full line of crimp fittings and custom assemblies offered
- Custom lengths, sizes, other overbraiding materials, special cleaning, and/or packaging is available
- Add stainless steel armor casing or cuffs for an extra layer of protection from crushing, kinking, harsh environments, and abrasion while still allowing flexibility
- Laser-etched stainless steel collars for hose identification available

## Molded Single-Use Manifold Assemblies

AdvantaPure specializes in the design and manufacture of molded Single-Use manifold assemblies for sampling and storage applications. These assemblies are available in platinum-cured silicone or AdvantaFlex<sup>®</sup> biopharmaceutical grade TPE.

Learn more at www.advantapure.com/single-use-molded-manifolds.htm

#### **APST UNREINFORCED SILICONE TUBING**

Low-volatile grade, platinum-cured silicone tubing is clean-room produced for critical pharmaceutical, biomedical, cosmetic, and food applications. APST has undergone extensive physical, chemical, and biological testing and meets USP Class VI, FDA, ISO, and EP standards.

Learn more at www.advantapure.com/apst-silicone-tubing.htm

AdvantaFlex addresses the need for a flexible, sterilizable, moldable, weldable and heat sealable biopharmaceutical tubing without silicone oils. AdvantaFlex maintains its physical properties following sterilization processes, remains translucent for visible product flow and does not become gummy. The tubing resists kinking and is an excellent component for Single-Use systems.
